

PROCEEDINGS

Vol. 21

11th Islamic Countries Conference on Statistical Sciences (ICCS-11) *Statistics for Strategic Development*

on
December 19-22, 2011

at
University of Management and Technology
Lahore, Pakistan

Jointly organized by

Islamic Countries Society of Statistical Sciences
National College of Business Administration & Economics
University of Management and Technology

Islamic Countries Society of Statistical Sciences

44-A, Civic Centre, Sabzazar, Multan Road, Lahore, Pakistan (www.isoss.net)

Copyright: © 2012, Islamic Countries Society of Statistical Sciences.
Published by: ISOSS, Lahore, Pakistan.

*“All papers published in the
PROCEEDINGS of ICCS-11
were accepted after formal peer review
by the experts in the relevant field.*

**Dr. Munir Ahmad
Editor**

CONTENTS

Address by Dr. Munir Ahmad, Founding President and Patron ISOSS		vii
1.	006: ARMA mortality regression module of lung cancer in Palestine Hazem I. A. El Shekh Ahmed	1-10
2.	009: Computer science algorithms in space science Irshad Ullah	11-14
3.	010: Data quality enhancement using data mining approach Irshad Ullah	15-18
4.	028: Testing of intercept when slope is under suspicion Budi Pratikno and Shahjahan Khan	19-29
5.	034: Trends in research publications of Pakistani statistical journals Mehwish Hussain and Waqas Ahmed Farooqui	31-38
6.	038: Instrumental variable estimator of the slope parameter when the explanatory variable is subject to measurement error Anwar Saqr and Shahjahan Khan	39-53
7.	041: Bayesian prediction of matrix elliptical multivariate models with conjugate prior Mohammad Arashi and Shahjahan Khan	55-65
8.	047: Modelling the daily rainfall amounts of Dir and D.I. Khan, Pakistan for agricultural planning Zahid Hussain	67-82
9.	051: Non-parametric and parametric duration analysis of coronary artery disease with chest pain in past Mehwish Hussain, Nazeer Khan and Mudassir Uddin	83-90
10.	053: A brief review of geoinformatics analysis on poverty data in Indonesia Asep Saefuddin	91-102
11.	055: Relationship among GDP, per capita GDP, Literacy rate and unemployment rate M. Shafiqur Rahman	103-111
12.	058: The consumption pattern of household food-away-from-home: Pakistan Ammara Nawaz Cheema and Naheeda Akhtar	113-118
13.	059: Redundant use of mobile affects student's GPA Ammara Nawaz Cheema	119-126
14.	107: Functional training and its impact on the development of statistical awareness Waleed Ameen Abd Elkhalek Mohamed	127-142
15.	119: A proposed approach on multivariate clustering analysis using simulated annealing - A case study on location problem Mahdi Bashiri and Mohammad Khanloo	143-150
16.	120: Statistical analysis of the number of the galaxies in cubic cells in the universe Fahimeh Mostajeran	151-160
17.	125: Universally optimal neighbor designs in blocks of size three Munir Akhtar and Rashid Ahmed	161-172

18.	129: Recursive method for AR parameters in the presence of outlier in poisson noise	Sadaf Manzoor	173-180
19.	147: Bayesian analysis of the adaptive type-II progressively hybrid censoring scheme in presence of competing risks	Fariba Hemati and Esmail Khorram	181-194
20.	149: Root transformation method for monitoring correlated variable and attribute quality characteristics	Mohammad H. Doroudyan and Amirhossein Amiri	195-200
21.	164: Using time dependent coefficient rates model for assessing the impact of breastfeeding on weight loss in less than two years old children	Alireza Abadi, Gelareh Rahimi, Yadollah Mehrabi and Nahid Kholdi	201-208
22.	165: A Data Envelopment Analysis method for optimizing multi-response problem by dynamic taguchi method	Majid Jalili, Mahdi Bashiri and Amirhossein Amiri	209-222
23.	M-018: A note on bathtub hazard rate	Sajeela Tazeen Dara and Munir Ahmad	223-229
24.	M-025: Mixture ratio and regression estimators using multi-auxiliary variables and attributes in single phase sampling	Muhammad Moeen, M. Qaiser Shahbaz and Muhammad Hanif	231-242
25.	M-036: Comparison of three different methods for outlier detection in bioequivalence studies	A. Rasheed and T. Ahmad	243-250
26.	M-038: On discordance test for the wrapped normal data	Adzhar Rambli, Ibrahim Mohamed, A.G. Hussin and Safwati Ibrahim	251-267
27.	M-046: Quantifying the effects of turbulent atmosphere on small satellites at Pakistan ionospheric environment	M Ayub Khan Yousuf Zai and Khusro Mian	269-276
28.	M-047: On the role of the multivariate fatigue life distribution in modeling multi-site fatigue	Saleha Naghmi Habibullah and Sam C. Saunders	277-292
29.	M-048: Economic design of time truncated sampling plans for weibull distribution using percentiles as quality parameter	Muhammad Aslam, Muhammad Azam, Chi-Hyuck Jun and Munir Ahmad	293-305
30.	M-049: Role of line manager in implementing Human resource management and human resource development	Madeeha Jabeen	307-315
31.	M-058: Estimation of the scale and location parameters based upon the upper records values of weibull distribution from complete data, type-II singly and doubly censored data	Riffat Jabeen, Azaz Ahmad and Abdus Samad Hirai	317-336
32.	M-059: Estimation of the parameters based on lower record values from the gumbel distribution for type-II singly and doubly censored data	Saba Aziz, Azaz Ahmad and Abdus Samad Hirai	337-350
33.	M-069: Prediction of household expenditure on the basis of household characteristics	Zahoor Ahmad and Abeeda Fatima	351-367

34. M-070: Classification of households with respect to poverty by using cluster analysis	Zahoor Ahmad and Zainab Ejaz	369-381
35. M-071: Determinants of labour participation: evidence from Pakistan labour force survey 2009-10	Zahoor Ahmad and Khadija Fatima	383-392
36. M-074: Classification of countries with respect to their governance	Zahoor Ahmad and Aysha Saleem	393-408
37. M-075: Problems in the use of educational technology	Aamna Saleem Khan and Muhammad Qasim Rind	409-422
38. M-076: Computer hacking forensics investigation techniques	Nadia Qasim, Muhammad Qasim Rind and Sheikh Muhammad Saleem	423-433
39. M-078: Data quality management using data mining techniques	Irshad Ullah	435-440
40. M-080: Techniques used for hacking the information	Nadia Qasim and Muhammad Qasim Rind	441-458
41. M-081: On selection of autoregressive order in case of incorrectly model specification	Samir Safi	459-469
42. M-082: New variational model for images elective segmentation	Haider Ali, Noor Badshah and Ghulam Murtaza	471-482
43. M-087: A concept for personage's learning style centered technology based adaptive pedagogical system	Muhammad Anwaar Saeed and Khalil Ahmed	483-488
44. M-088: Cognitive model for social bots to learn opponents mixed strategy using adaptive neural networks	Asma Kanwal and Wajahat M. Qazi	489-494
45. M-089: SKANS: secure knots at the ends	Syed Ali Raza, Tanwir Ahmad and Asma Basharat	495-502
46. M-090: Building concious cybernetic entities using QuBIC model and framework based on unified theory of mind	Wajahat M. Qazi and Khalil Ahmed	503-508
47. M-091: Determinants of food inflation in pakistan & effects of seasonal adjustment on forecasting food inflation	Sadia Batool and Javid Shabbir	509-537
48. M-093: Biometrics support and agricultural statistics system: Tools of productivity increase	Osman M. Siraj and M. Singh	539-550
49. M-097: Underlying issues in knowledge elicitation towards automation	Nida Anwar and Khalil Ahmed	551-556
50. M-098: Framework for decision making with technological inference in management	Leena Anum and Khalil Ahmed	557-562
51. M-100: An improved class of regression estimators for the population mean using multi-phase sampling scheme in the presence of non-response	Saba Riaz and Javid Shabbir	563-576

52. M-101: A general family of estimators when the study variable is an attribute	Ayesha Tahira and Javid Shabbir	577-590
53. M-102: Estimation of finite population coefficient of variation in stratified random sampling	Aneel Ahmed and Javid Shabbir	591-608
54. M-104: Impact of education on gender discrimination: a comparative study of public & private organizations of Pakistan	Zahid Ali Channar, Muneer ud din Soomro and Arshad Haroon	609-618
55. M-107: Statistical study of agriculture development in Pakistan	Ambreen Zeb Khaskhelly and Imran Anwar Ujan	619-625
56. M-114: A quantum inspired sparse distributed memory (QI-SDM) model for clean patterns retrieval	Sagheer Abbas, Khalil Ahmed and Umer Farooq	627-635
57. M-115: Emotional state transition modeling using artificial neural networks	Atifa Athar and Khalil Ahmed	637-644
58. M-116: Role of emotion oriented agents in information media for effective communication	Atifa Athar and Khalil Ahmed	645-650
59. M-119: Performance excellence through integration of KM philosophy in TQM practices	Shahid Mehmood, Suleman Aziz Lodhi and Khalil Ahmed	651-660
60. M-121: GIS framework using SDI for disaster management	Umer Farooq, Khalil Ahmed, Yousaf Saeed and Sagheer Abbas	661-666
61. M-122: Risk management for CNG based vehicles	Yousaf Saeed, Khalil Ahmed, M. Saleem Khan and Umer Farooq	667-673
62. M-123: Circulating serum concentrations of adipocytokines in obese and type 1 diabetic children and young adolescents	Anila Jaleel, Bilal Aheed, Faisal Yaseen, Sana Yousuf, Harris Hashim and MS Farah	675-680
63. M-124: Operating systems scheduling a new perspective	Irshad Ullah	681-686
64. M-126: Sudoku square design, layout and analysis	Muhammad Aslam and Munir Ahmad	687-697
65. M-127: Statistical meta-analysis for ordinal categorical data	Md. Belal Hossain and Shahjahan Khan	699-705
66. M-129: Factor analysis of teacher's intervention strategies for solving student's behavior and learning problems	Sarah Ashraf and Asifa Kamal	707-715
67. M-135: Wireless security and threats	Muhammad Imran Tariq	717-729
68. M-143: Reifying techno-e learning as catalyst for affirmative change	Syed Faizan Haider, Daniyal Alghazawi and Waqas Ahmad	731-738
69. N-1: Weighted estimators of population mean using two auxiliary variables under two phase sampling	Aamir Sanaullah and Muhammad Hanif	739-746
